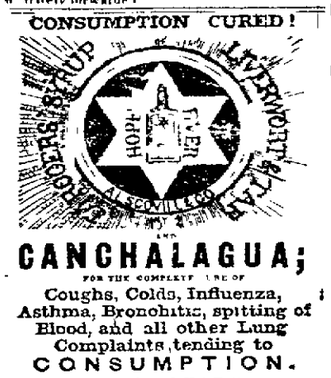
CONSUMPTION CURED!



CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above A remedy for the *complete cure* of all those affections of the Throat and Lungs which if neglected, always end in Consumption! It is invaluable, *which penny nostrums*, made just to *sell*, like many of the common nostrums of the day, but it is a strictly *scientific Preparation*—the original recipe having been furnished by an eminent Physician, (the late Prof Rogers,) and that still further improved by one of the present proprietors, who is himself a *regularly educated Physician* a graduate of the University of Pennsylvania It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them *entirely new* particularly the CANCHALAGUA a plant of most *wonderful* medicinal virtues, lately introduced into this country from California The Recipe has been shown to thousands of Physicians Who have universally approved of it, and many will be shown to any Physician who desires to see it, upon application either to the Proprietors or their Agents It has been used in *multitudes of cases* and is strongly recommended by *Physicians even Professors* in our Medical Colleges, Ministers of the Gospel Judges, Lawyers Merchants, Mechanics &c —a conclusive proof that there is no *quackery* or *deception* about it, but that it is a medicine of most uncommon virtue and efficacy

PAMPHLETS.

As no ordinary sized advertisement can begin to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form, the *history* of this Medicine—the *description* of *nature*, &c of its principal ingredients—the *effect* they are designed to have upon the human system—and above all the *incalculable amount of good* which it has done They design to circulate this pamphlet extensively, but should any one be overlooked they are earnestly desired to call upon the Agents named below, and procure one, *gratis* The *hints* on page 7th may be worth to yourself or family THOUSANDS OF DOLLARS and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible

Such being our confidence in its virtues we are willing to *warrant* the Medicine in *every recent case*, if used according to the directions and where the person is not satisfied that he is not derriving benefit from it, by returning the bottle within 24 hour's time,

THE MONEY

will be refunded. ☞See page 3d of the Pamphlet

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the Blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without causing debilitating unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect, sick head ache, and many nervous disturbances growing out of imperfect digestion are generally cured no cases of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troublesome children, supposed to arise from worms, are caused by a deranged state of the stomach and are removed by its use Persons both adults and children feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and can not in any case do harm

Home Testimony.

We, the undersigned, have in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

Geo Fitts,	Doct Aaron Young Jr
Albert Holton,	David Worcester
Wm H Vinton,	Simon F Walker,
Geo Hammett	John Hickins,
G F Sargent,	D H Ingalls,

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purpose for which it is recommended and have received many verbal assurances of extraordinary effects from persons whom I feel confident could not be deceived

HONEY! HONEY!!

BY BEES FED.

WHO ever supposed that the management of Bees and the making of Honey would be rendered a certain and profitable business? But it has been, and can now be done by all wishing to engage in the business

A citizen of this State has invented a mode of treatment by which Bees can be managed without difficulty and at a small expense, honey made at the rate of from three to four hundred pounds per swarm, each season The right of adopting and using this mode has been secured by Letters Patent, and the subscriber has purchased that right for the County of Penobscot so that he now offers the same to others either by town or individuals rights as may best suit purchasers and on such terms as bring it within the reach of all wishing to engage in it

The advantages gained by this Patent are—

1st A perfect command of the Bees, and a large increase of the swarms, without the trouble of hiving

2d A full security against the danger of robbing by neighboring Bees

3d, The honey is of a better quality and much more in quantity per swarm, than has ever been made by Bees managed in any other manner This is done by feeding as by that means the Bees not only rendered independent of flowers for his supplies but able to give his whole time to the work of making and storing the honey

4th, The opportunity is afforded of taking the honey at any time without disturbing the Bees

Lastly, It furnishes a fine opportunity for all professional men of small salary to make a good addition to their income and to aged persons and persons of feeble health to support themselves independently and that to with little or no labor

Such being the advantages gained by this Patent the subscriber recommends it to the public and assures all wishing to purchase that on trial they will find it answering their highest expectations

His residence is at this place where he will be happy to answer all those who may address him (post paid) on the subject

Another Life Saved.

Read the following letter from a Clergyman of Camden Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR.—A CURE.

DR. DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I write to state, through the Banner, that in my last lecture on spring, I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cough which seemed to affect the vocal organs, that it was with great difficulty I discharged the duties of my office My cough continued until I was exceedingly troubled with a raising of blood which created a dry, hard cough My constitution failed, my strength waned, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner I procured a bottle and commenced taking it, and continued the use until I had taken three bottles when I became satisfied it was doing me good, making a large increase of physical strength, and also controlling the very cough that should be enhanced I used other kinds of patent medicines but with no good effect, never when I continued gradually to sink under my disease at the expiration of which time, I was so extremely weak my skin dry and husky, and my feet and hands cold most of the time I had a dull, heavy pain between my shoulders, and a distressing pain in the pit of my stomach My tongue was so coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing and low spirits My stomach at times was so sore and weak that it was with difficulty I could stand erect I then was advised to try I commenced the use of N H DOWN'S ELIXIR And to my great joy and heartfelt joy of my life, I found that the use of it at once gave me an appetite, equalized my bowels equalized the circulation and produced a healthy action upon the skin I used three bottles in two weeks which entirely removed the disease and weakness from my stomach, gave me good appetite, and greatly improved my strength I continued the use six weeks, using six bottles in which time I was able to resume my usual ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in *colds* and in the case of *measles*, and it has proved as it is recommended to be

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE PULMONARY ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J L TUTTLE

Camden August, 1849

Facts deduced from the foregoing letter

1st Down's Elixir is a Laxative—keeping costiveness while other medicine increases that difficulty

2d It is perspirant It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite and restores strength to the system.

4th It cures the—is an effectual remedy for the measles, and proves that IT IS RECOMMENDED TO BE

It is sold by Druggists and dealers in medicines throughout the country and at wholesale and retail at proprietor's prices by DAVID BUGBEE & WADDLE, CURTIS & PERKINS A P GUILD W MANN, G McFARLAND Bangor, L S Smith J W Curtis & Co, Hampden, Chas Johnson, J B Chick, Frankfort, H P Fifield Buckspoit J Hooper, Jr S P Hatch & Co, Castine, B Nourse, Geo Parcher Ellsworth, E P Gerrish & Co, Orono, J & R Fisk, H & J Y Richardson, Oldtown, Wm O Poor, Belfast, Chas A Macomber, E T Stocomb East Thomaston

GREAT IMPROVEMENT IN *Planing Tonguing, and* Grooving Lumber.

JOSEPH P. WOODBURY'S

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tonguing and Grooving Machine, now offers for sale Machines and Rights to use the same This machine will plane 6,000 feet of boards to any uniform thickness, in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder, now in common use The construction and organization of this machine is different from any other now in use Communications for further particulars cheerfully responded to by addressing the subscriber (post paid,) Boston, Mass

AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S Patent Office, in accordance with the 10th Sec of Act of '27

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office *where by a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By applicant on at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general, of paramount importance, in order to obtain correct specifications and early patents* The experience of *sixteen* years practice in an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws, and in patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment

R. H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq, of Boston, did transact at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were few who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have he been too in securing inventors that they cannot employ a person more competent and trustworthy, and more capable of putting the application in form to secure for them early and favorable consideration at the Patent Office EDMUND BURKE,

John S. Sayward—Editor.

SATURDAY, FEBRUARY 2, 1850.

The Resolutions of Mr. Clay.

A portion of our edition of yesterday was worked off without the resolutions of Mr. Clay, and we therefore insert them to-day in the entire edition.

These resolutions, as we understand them, are by no means satisfactory to us, and do not seem to be up with the true popular sentiment of the country. The first resolution is differently understood by different persons, and we confess our inability to understand it in any other way than as being opposed to the approval by Congress of the Constitution of California while it contains a clause restricting slavery. Others understand it differently, thus, as it seems to us making the mere matter of form, override that of the legitimate practical effect, for the approval of the Constitution as prepared by the people in that territory would be equivalent in all practical views, to a restriction of slavery by Congress—varying only in form, and that form of very little consequence.

The debate upon these resolutions will soon come to hand, and we shall then have an opportunity to understand the matter more fully, and must therefore consent to wait. We cannot but say that upon the vital question of preserving freedom to free territory it is no time now for the Representatives of the Free States to flinch.

MRS. WHITTLESEY'S MAGAZINE FOR MOTHERS.

The editor of this work, Mrs Whittlesey, has for many years edited, the well known and popular monthly entitled the 'Mother's Magazine.' For some cause with which we are unacquainted, her connection with that publication has closed and she has commenced a new work with the above title.

We have received the first number from Mr Duren who is the Bangor agent for the work.

The object of this Magazine as may well be supposed by all acquainted with the writings of its editor, is, to aid those who sustain the maternal relation, in understanding and fulfilling the duties growing out of such relations.

☞ A late English paper mentions a rumor that Rear Admiral Hornby, commander-in-chief in the Pacific, had been ordered to proceed from Valparaiso, with all the men of war he could collect, to Nicaragua, and place his squadron at the disposal of the British Chargé d'Affairs, for the protection of British interests against the designs and encroachments of the 'Yankees' in that quarter. It was also rumored that Vice Admiral Lord Dundonald, commander, in-chief in the West Indies, will also assemble all the ships he can get together on that station, and proceed to the Mosquito shore with the same view.

Various rumors have appeared in the London papers, during the last few weeks, respecting a proposed extension of the suffrage, but we have authentic source. The fact that these rumors appear in the weekly Chronicle which has some peculiar means of acquiring information, causes some importance to be attached to them.

The steamer 'Niagara,' which arrived last, brought out an importation of splendid Royal Cochin-China Fowls, to Mr George P. Burnham, of Roxbury. These specimens are among the finest of this great variety of domestic bird, which have ever been brought to this country.

A late English paper says that Tom Moore, who must be far advanced in years, is in the enjoyment of excellent health, physical and intellectual, at the cottage at Sloperton, takes his daily walks along the terrace which borders his pretty garden, and drives as usually each day in a small pony carriage.

An association has been formed at the City of London Mechanics' Institution, to promote the practice of decomposing the dead by the agency of fire. The members propose to burn, with becoming solemnity, such of their dead as shall have left the remains at the disposal of the association.

☞ The concert of the Billings and Holden Society gave a very acceptable concert at the Hammond Street Church on Thursday evening, for a notice of which see the remarks of our correspondent.

The principle of lessening the number of officers which has now been applied to New York, will be extended so as to embrace all the Custom Houses, where it may be introduced without positive injury to the public service.

The Florida Sentinel comes out strongly against the Southern Convention, which is proposed to be held in Nashville, Tenn., in June next, and to which Mississippi and South Carolina have already chosen delegates.

Fifty-five negroes, emancipated by the late T. Capheart, Esq., of Hertford county, North Carolina, arrived at Norfolk on Wednesday, to take passage in the packet for Liberia; which is expected to sail in a few days.

Mrs Harriet Scudder, wife of Rev John Scudder, D. D., and for more than thirty years a missionary of the American Board, died at Madras on the 19th of November, after an illness of four days.

Dickens will start a weekly journal in May and on the first of the same month Douglas Jerrold will produce the first number of a new Magazine.

The Legislature of Missouri, it is said, is about to change the name of Benton county, so incensed are at the conduct of the Senator.—Small business.

☞ The Express for with the Mail for California, will leave New York on the seventh day of February.

The journeymen shipcarpenters of Wilmington, Del., made a strike for higher wages on Monday last.

(For the Whig and Courier.)

The Old Fashioned Concert.

As I supposed would be the case, this concert made every body happy; the performers, the performed to, and the performed for.

The attendance was large. The performers were many, the performed to were more, and the performed for are numberless.

Many judges were there, but no critics. Of the judges there was a greater variety than there is of bears in Maine. First, there was among the singers, the judge himself—then there was the deacon, the colonel, the major, the captain, the grand yoho and their counterparts among the treble. The spectators all were judges. But the best of these were those qualified by many years. When some of the old pieces were "tuned up," they manifested great excitement. "Victory" and "Sherburne" put them upon their feet, and when

"Fly like a youthful hart or roe
"Over the hills where spices grow,"

came along, it was difficult to restrain them from going into a regular double-shuffle.

It was a great affair. We may not look for another of the kind for a year. When we do have it, there will be, without doubt, an immense turn out.

Those who were not there will never know what they lost, and I fear all who were did not fully appreciate what they got. It is enough, however, that the old folks enjoyed it highly, and that the cold folks will enjoy the results more highly. FLY-LIKE-A-YOUTHFUL.

The New York Tribune says that Neil S. Brown, late Governor of Tennessee, has been selected by the President for Minister Plenipotentiary to Russia.

Resolutions in favor of the taxation of Canada, have been introduced into the N. Y. Legislature.

Alexander Duncan, Esq., of Providence has made a present of $20,000 to the Butler hospital for the insane.

Collection of the Revenue in California.

We gather the following facts from the papers relative to this matter transmitted to Congress, from the Collector at San Francisco, as culled by the correspondent of the Tribune:

He says: "Our friend T. Butler King is a candidate for the U. S. Senate, with some prospect of being elected by the Legislature." Mr. King is a native of Massachusetts, has been long a resident in Georgia, and had become a citizen of California.

Mr. Collier was perfectly astounded at the amount of business at the custom house of San Francisco. He found in port 112 vessels, 120,317 tons of shipping, only 32,823 tons of which were foreign. From April 1 to Nov. 10, there had been 697 arrivals from sea, of which 296 were from foreign ports. He found the clerks in the custom house getting $1,800 to $3,000 each—flour was then at $10, and pork at $60 per barrel—the average price of board was $5 per day, without lodging, the rent of a room sufficient to hold a bed was $150 per month, and wood was $40 per cord. He had been offered a house to live in, with only four rooms in it, and no fire places, and the rent asked was $2,100 per month. He advises Mr. Meredith to send round Cape Horn a cast iron custom house without delay. Nineteen vessels in the harbor were used for warehousing goods on which the duties were unpaid. His estimate of his emoluments in a commercial sense equal to the port of Philadelphia. He believed that more goods were landed at San Pedro, 25 miles from Los Angelos, than at any other port in California, except San Francisco. At Los Angeles large quantities of high priced goods were obtained by the Mexicans of the interior through their regular traders.

Col. Collier's second letter to the Secretary of the Treasury is dated Nov. 29. He had seized a British bark for engaging in the coasting trade between California and Oregon. The vessel had been at Vancouver's Island, and he had papers from the Hudson Bay Company's Factor. Col. C. thus states the condition of things:

"Here Labor controls Capital. The Mechanic and Artizan fix their own prices, and the capitalist is compelled *from necessity* to submit to that price, whatever it may be." "California is now, and for all time to come must be, essentially *commercial*." "So long as the search for gold shall continue, just so long will agriculture be neglected. It will not pay—labor will command higher prices than can be paid for growing grain." San Francisco for the Pacific, "must become to the nation what New York is on the Atlantic."

The Collector wished to be empowered to appoint his subordinates and regulate their salaries without waiting for Mr. Meredith's approval. One of his clerks had $3,000 a year for acting as Cashier, but a banking house had offered him $5,000, and he was about to quit. His Deputy ought to receive $6,000 a year—no honest or competent man would do the duty for less. He complained that Chili disregards the reciprocity treaty between her and the United States.

The Italian Refugees in Turkey.

[From a Constantinople letter in the London Times.

The greater number of the Italians who took refuge here, after the occupation of Rome by the French, have become renegades. The Turks, though they must suspect the motives of these pretended converts, nevertheless treat them kindly. They have each received a certain sum of money as the price of their apostacy; some have obtained employment in the houses of benevolent Mussulmans, and others hold trifling places in some of the Government departments. The golden age for renegades is past. Converts are at present a drug—and a very nauseous one—in the market. The most zealous Mahomedan, Dervish or Molla, would scarcely give a dish of kaibobs to gain the souls of a hundred Ghouls. It is more from a feeling of compassion than one of devotion that these Italian renegades are received into the fold of the Prophet.

DISASTROUS FIRE AND LOSS OF LIFE IN PEORIA, ILLINOIS.—A despatch dated Peoria, Jan. 28, to the Providence Journal, says:

"A disastrous fire occurred yesterday morning. It commenced in the building corner of Main street and Printers' Alley. The lower floor, occupied as a drug store, the second as a printing office of the Daily Champion, the rear building and third floor by the New York Temperance House. An explosion took place in the drug store, and the building fell in, killing James Kirkpatrick, editor of the American. J. Pickett, editor of the Champion, was smothered to death while endeavoring to save the books, and was buried in the ruins. It is supposed that several others were killed. All the contents of the building destroyed. Whole loss not ascertained."

THE WEATHER. Our winter has proved a mere, it has in fact been no winter at all. It has been spring throughout, from the 1st of November to the middle of January; and even now, whilst we write in our shirt sleeves, with every window up, it is so warm and sultry that spring would seem to be giving way to summer.—[N. O. Delta, 6th.

Affairs at Washington.

The Washington correspondent of the New York Express, of the date of Jan. 28th, thus writes:

The Chairman of the Committee of Ways and Means has agreed, it is understood, to ask action in the House, on Wednesday next, on the Revenue Collection Bill. It is probable that he will carry the House for his proposition—viz: to give Mr. Meredith $1,100,000, from Jan'y 1st to July 1st; but Mr. Vinton will hardly carry his amendment, to send the expenses of collecting the revenue in Oregon and California.

The whole subject, will occasion, I am informed, great debate in the House,—in the course of which Loco Focoism will, in the general, and in the detail, assail the whole concern, and all the expenditures of the administration.

If Mr. Bayly's amendment passes both Houses of Congress, the Revenue Cutter service can be restored in part, and it will be unnecessary, I presume, to make any further removals in the New York Custom House. But then the enormous expenses in California cannot be sustained. Something extra must be done for the new great and highly important port of San Francisco, which already collects about as much revenue as Philadelphia.

The impudence of our Loco Foco brethren in all this matter would be amazing—if any thing in them could amazing be. Four years ago, Mr. Walker recommended the cost of collection to be only $1,500,000. *His* House for two years, and *his* Senate for three or four years, paid no sort of attention to his recommendation, which leads to the belief that, what he advised in public he disapproved in private. The consequence was, that the Bill was not passed until it was known Mr. Polk's administration was defeated, and then on the last night of the session. Nobody better knew, than Mr. Walker, that the act was impracticable, because he never caused it to be passed all the while out of power and because he never, having the power all the time, would collect the Revenues for the cost he advised. His expenses increased every year, and run up in 1848 to $2,200,000. All the while, he, of his own will, had the legal power to reduce, if he would, to $1,100,000—the sum now imposed by law upon Mr. Meredith.

When the House will finally act upon this matter, and the Senate concur, nobody can foresee. In the House, it is almost impossible to do anything. Mr. Clingman marked out a chart for the obstruction of all public business of importance, which too many are disposed to follow, especially members from the South. In so doing, when they are strong enough to call the ayes and noes, they have very great success.

The House has had a considerable squabble to-day upon the morials for a Congress of nations to keep the peace. The part, seemingly in opposition to them moved their reference to the Committee on Foreign Relations,—but the parties that presented them wanted and urged a select committee, who would give the subject their especial attention.

WASHINGTON, Jan'y 29.

In the House a number of reports were presented including one from Mr. Strong from the committee on elections, offering a resolution that the parties to the contested election in the fourth district of Pennsylvania be permitted to take depositions which was adopted.

Mr. Bayley presented a resolution authorizing the Committee of Ways and Means to employ a Clerk, which was also adopted.

Mr. Burt, from the Committee on Military Affairs, asked that the same be discharged from the further consideration of the memorial for the abolition of the army, navy, West Point school, &c. He also reported a bill for the retired list, which was referred to the Committee of the Whole and ordered to be printed.

Mr. McLane, from the Committee on Commerce, presented a bill to admit certain articles of Canadian production free of duty, providing Canada admits the same from the United States free. The bill was referred to the Committee of the Whole, and ordered to be printed.

Mr. Sweetzer offered a resolution that the mileage be computed by the nearest mail route.

Mr. Johnson, of Arkansas, moved to lay the resolution on the table, and called for the yeas and nays. Lost.

THE FARMER IS NOT PROPERLY ESTIMATED. It is a lamen able fact, that the farmer does not occupy that elevated position in society that his occupation justly entitles him to. He is looked upon as a being quite below the lawyer, physician, divine, artist, merchant or merchant's clerk. To be a *farmer*, is to be nobody, a mere clodhopper, a digger of bogs, and ditches, and dung heaps, and free to wallow in the 'free soil' he cultivates, provided he never seeks to elevate himself above that position, to what the world calls 'good society.' Hence comes the desire of 'the boys' to escape, not so much the drudgery of their employment, as from the idea that they are looked upon and estimated as mere drudges.

What blindness, folly, and false philosophy is this? The result of these false premises is, that the 'professions' are crowded to the starvation point; clerks not only go begging, but become beggars, or worse; merchants are multiplied, and good old-fashioned labor is going out of fashion.

While we would give all due honor to the professions, the farmer, who is the *producer* of all, both in food and raiment, that adds to the comfort and sustenance of the human family, need not feel that he is *below* occupations that gain their support from the folly, pride, misery or wickedness of their fellow creatures.

If the aspirations of farmers were half so strong to elevate their sons as farmers, as it is to make them merchants, or professional men, and perchance loafers, we should soon be taught to look to the Agricultural class for the best bred as will as the best fed men in America.—Barnum's Address.

HOME. It is not the imposing majesty of a sumptuous mansion, nor the hollow grace of gaudy furniture, nor the obsequious attention of servants, nor even of children, that makes a home of home, and keeps alive the sacred blessedness of a married life. No, but it is the steady exercise of those holy characteristics that sooth the sorrows, and smooth the asperities of our nature.

Those little evidences of sincere esteem, those spontaneous expressions of affection and tenderness, those unpremeditated smiles and tears at each other's joy or sorrow, that affectionate officiousness which volunteers more readily as service becomes more difficult. These are the things that give to home its present and most powerful attractions; where these abound, the mind reposes in all the confidence of conscious safety, and in the satisfaction of ample enjoyment.

Mutual respect and attention between man and wife are essential to render them respectable in the eyes of their domestics and children; and also to maintain that healthy flow of soul, that cheerfulness and buoyancy of spirit so necessary in bearing the ills, and performing the duties of life. Kindness and respectful treatment are due to ourselves as wife and husband—for we cannot love those whom we do not respect, nor can they love us in return.

Let it then be a principle of established authority like the laws of the Medes and Persians, that change not, to give each that affectionate attention which is mutually due between ourselves.

Heaven helps those who help themselves.

Origin of the Names of the States.

1. Maine was so called as early as 1638, from Maine in France, of which Henrietta Maria, Queen of England, was at that time proprietor.

2. New Hampshire was the name given to the territory conveyed by the Plymouth company to Capt John Mason, by patent, November 7, 1639, with reference to the patentee, who was Governor of Portsmouth, in Hampshire, England.

3. Vermont was so called by the inhabitants in their declaration of independence, Jan. 16, 1771, from the French *verd*, green, and *mont*, mountain.

4. Massachusetts derived its name from a tribe of Indians in the neighborhood of Boston. The tribe is thought to have derived its name from the Blue Hills of Milton. 'I have learned,' says Roger Williams, 'that the Massachusetts was so called from the Blue Hills.'

5. Rhode Island was so called in 1644, in reference to the Island of Rhodes, in the Mediterranean.

6. Connecticut was so called from the Indian name of its principal river.

7. New York (originally called New Netherlands) was so called in reference to the Duke of York and Albany, to whom this territory was granted.

8. New Jersey (originally called New Sweden, was so named in 1664, in compliment to Sir George Carteret, one of its original proprietors, who had defended the Island of Jersey, against the Long Parliament during the civil war of England.

9. Pennsylvania was so called in 1681, after William Penn, the founder of Philadelphia.

10. Delaware was so called in 1703, from Delaware Bay, on which it lies, and which received its name from Lord De La War, who died in this bay.

11. Maryland was so called in honor of Henrietta Maria, Queen of Charles I., in his patent to Lord Baltimore, June 30, 1632.

12. Virginia was so called in 1584, after Elizabeth, the virgin Queen of England.

13 and 14. Carolina (North and South) was so called by the French in 1564, in honor of King Charles IX, of France.

15. Georgia was so called in 1772, in honor of King George II.

16. Alabama was so called in 1817, from its principal river.

17. Mississippi was so called in 800, from its western boundary. Mississippi is said to denote the whole river; that is, the river formed by the union of many.

18. Louisiana was so called in honor of Louis XVI. of France.

19. Tennessee was so called in 1796, from its principal river. The word Tennessee is said to signify a curved spoon.

20. Kentucky was so called in 1782, from its principal river.

21. Illinois was so called in 1809, from its principal river. The word is said to signify the river of men.

22. Indiana was so called in 1802, from the American Indians.

23. Ohio was so called in 1802, from its southern boundary.

24. Missouri was so called in 1821, from its principal river.

25. Michigan was so called in 1805, from the lake on its borders.

26. Arkansas was so called in 1819, from its principal river.

27. Florida was so called by Juan Ponce Le Leon, in 1672, because it was discovered on Easter Sunday; a Spanish, *Pascua Florica*.

28. Texas was so called by the Spaniards in 1690, who that year drove out a colony of French, who had established themselves at Matagorda; and made their first permanent settlement.

29. Wisconsin was so named in 1836, from the river of the same name, when a territorial government was formed.

30. Iowa was so called in 1838, after a tribe of Indians of the same name, and a separate territorial government formed.—U. S. Almanac.

OHIO. The Ohio House of Representatives has given the State Printing to S. Medary, Editor of the Statesman, in the face of a bid from Scott & Lascom of the State Journal to do the whole at an average of at least 15 per cent. cheaper. All remonstrance and expostulation were overruled, and the job given to Medary by a party vote of 34 to 30. We say a party vote, though one Whig, to wit, John Manful, representing Carroll and Tuscarawas Counties, saw fit to give the printing to a Locofoco at prices fifteen per cent. higher than Whigs had offered to do it for.—[N. Y. Tribune.

It is understood at Washington, that the remaining missions to Russia, Brazil, Prussia, and China, will be filled at an early day. It gentlemen on the Whig side in the Senate would amend Mr. Bradbury's call by inquiring why such persons are retained in office, and why the departments in Washington are permitted to be crowded with political spies, whose sympathies an Linclinations are all against the Administration upon whose mistaken forbearance they are feeding, it would furnish an excellent commentary to his text, and supply information to those who have so long labored for Whig ascendancy, in which they are sadly deficient.

The Captain General of Cuba lately visited Matanzas for the purpose of selecting a site for the erection of a fortress in the harbor for its protection. While there he also visited the jail, and ordered the release of all those prisoners who had behaved well during their confinement. He found that two men had been confined over the time for which they had been sentenced and had them immediately discharged, directing the jailor to be put in their place for this gross neglect of duty.

It is generally understood that General Houston will take the earliest opportunity to define his position on the slavery question, which is said to be antagonistic to the position assumed by the politicians of the Calhoun school. Those in the supposed confidence of Mr Houston, state that his speech will be delivered next week, when, it is expected, Mr Calhoun will be able to resume his seat.—Corres. Phil. North American.

SOUTHERN CONVENTION.—By general consent the resolutions on this subject were yesterday laid on the table, with a view of referring them to a joint committee of both Houses, to put them in proper shape. We have the best reason for stating that they will be adopted with remarkable unanimity and that Virginia will show herself true to her high duties. They will probably be acted on and passed to-morrow.—Richmond Enquirer.

TIME.

Time's an hand's breath; 'tis a tale;
'Tis a vessel under sail;
'Tis an eagle in its way,
Darting down upon its prey;
'Tis an arrow in its flight,
Mocking the pursuing sight;
'Tis a short-lived fading flower;
'Tis a rainbow on a shower;
'Tis a momentary ray,
Smiling in a winter's day;
'Tis a torrent's rapid stream;
'Tis a shadow; 'tis a dream;
'Tis the closing watch of night,
Dying at the rising light;
'Tis a bubble; 'tis a sigh,
Be prepared, O man! to die.

MR. CLAY'S RESOLUTIONS.

WASHINGTON, Jan. 29.

The great event of the day is the presentation by Mr. Clay of the following resolutions:

In the Senate it being desirable for the peace, concord and harmony of the Union of the States to settle and adjust amicably all questions of controversy between them arising out of the institution of slavery upon a fair equality and just basis—Therefore

Resolved, That California with suitable boundaries, ought, upon her application to be admitted as one of the States of the Union, without the imposition by Congress of any restriction as to the exclusion or introduction of slavery within those boundaries.

Resolved, That the Western State of Texas ought to be fixed or the Rio del Norte, commencing one marine league from its mouth and running up that river to the southern line of New Mexico, thence with that line eastwardly and continuing in the same direction to the line as established between the U. S. and Spain, not extending any portion of New Mexico, whether lying on the east or west of that river.

Resolved, That it be proposed to the State of Texas that the U. S will provide for the payment of all that portion of the legitimate and bonafide public debts of that State, contracted prior to its annexation to the U. States, and for which the duties of foreign imports were pledged by the said State to its creditors, not exceeding the sum of —— dollars, in consideration of the duties so pledged, having been no longer applicable to that object, after the said annexation; but having thenceforth become payable to the U. S. upon the condition, also, that the said State shall by some solemn and authentic act of her Legislature, or of a convention relinquish to the U. S. any claim which it has to any part of Mexico.

Resolved, That it is inexpedient to abolish slavery in the District of Columbia, while that institution continues to exist in the State of Maryland, without the consent of that State, without the consent of the people of the District, and without just compensation to the owners of slaves within the District.

Resolved, That it is inexpedient to prohibit within the District, the slave trade and slaves brought into it from States or places beyond the limits of the District, either to be sold therein as merchandise or to be transported to other markets without the District of Columbia.

Resolved, That more effectual provision ought to be made by law, according to the requirements of the constitution, for the restitution and delivery of persons bound to service or labor in any State, who may escape into any other State or Territory of this Union.

Resolved, That Congress has no power to prohibit or obstruct the trade in slaves between the slave holding States, and that the admission or exclusion of slaves brought from one into another of them, depends exclusively upon their own particular laws.

Mr. Clay sustained these resolutions by a speech in which he commented on them severally. He urged the necessity of a compromise and the duty and ability of the North as the stronger, to be magnanimous to the South as the weaker. In allusion to the recent recommendation of the President in regard to slavery in the new Territories, Mr. C said:—'Much as I am disposed to defer to higher authorities, and anxious as I equally am to find myself in a position which would enable me to cooperate heartily with other departments of the government in conducting the affairs of this great people, I cannot conceive the propriety of a dereliction of those territories—if abandonment of them—leaving them without government to all those scenes of disorder, confusion and anarchy which I regret to say with respect to some of them, there is too much reason to anticipate will arise. It is the duty, the solemn (I was going to add) almost a sacred duty of Congress to legislate for them, or give them the benefit of law, order and security.

In commenting on the fourth resolution, after some remarks relative to the circumstances connected with the contraction of these debts by Texas, Mr. Clay said, in his humble opinion, he thought if there was justice or truth, we owe to the creditors of Texas the duty of reimbursing them from money loaned upon the pledge of those revenues which were cut off by annexation. He proposed also that Texas should, for the consideration mentioned, relinquish any claim she may have to any portion of New Mexico; he was willing to give something for one imperfect claim of this kind, for the sake of peace.

Mr. Clay said, in conclusion, he had thought that in looking at this whole subject, it was fit and proper to reciprocate two great and fundamental principles, to keep them before the mind that they might not violate them. These resolutions involve no sacrifice of any principle.—They were founded upon a basis of mutual forbearance and concession—a concession not of matters of principle but matters of feeling merely. He thought, in view of all circumstances a more liberal concession might be expected from the free States than could be asked of the south. And truly, gentlemen of the north, this question was an abstraction, while with the people of the south it was a principle involving their property, and, as a large portion of them believed, of their prosperity and peace.

Mr Clay was followed by Senators Rusk, Foote, and Mason of Va, Davis of Miss, King of Alabama, Berrien and Butler, who all strongly expressed their dissent from the resolutions. Mr Cass was the only Northern Senator, who spoke very briefly, and only in reply to an incidental reference of Mr Clay to the circumstances of the admission of Michigan into the Union. The resolutions are made the special order for Tuesday next. The Senate then adjourned.

In the House, the morning hour was occupied with a debate on a proposed reform in the mode of computing the mileage of members. The debate remains unfinished to be resumed to-morrow.

THE LADIES OF BOSTON find they can clothe their little boys at one half the expense they formerly did, by visiting *Oak Hall*, Ann Street—There is an immense stock of Boys' CLOTHING in the beautiful ROTUNDA of this Establishment, and our ladies will do well to take their boys there, when in Boston.

PEACE CONVENTION.

The friends of Peace, in this State, will hold a Convention at AUGUSTA, Feb. 13, at 10 o'clock A. M. A delegation of the American Committee, consisting of

ELIHU BURRITT, Esq.,

Hon. AMASA WALKER, and others, will be present. It is earnestly desired that the friends of Peace in all come from all parts of the State and together speak a great word for Peace. May we not hope that every Town, Church, and Literary Institution in the State may be fully represented. Come, friends of Religion and humanity, and let us take counsel together.

Per order of the
American Peace Congress Committee

January 25, 1850.

PATCH HOUSE,
BANGOR, MAINE.

THE subscriber late of the Wadleigh House, Old Town, has the pleasure to announce to his former customers and to the public generally that he has leased for a term of years the above named House so long and favorably known to the travelling community.

This is not a new or unpopular establishment, but located on Main street, directly in the centre of business and within late improvements added to its former most excellent accommodations, it is one of the best Public Houses in this State. Its hundred rooms are neat, airy, and spacious, all having been newly furnished with every thing conducive to comfort and convenience.

The table will be furnished with all the dainties and luxuries which the market affords, served up in the choicest manner.

Connected with the Establishment is a large Stable, which will be attended by experienced and faithful Ostlers.

The subscriber hopes by strict attention to business that he will merit and receive a share of the public patronage.

HIRSEare the *only Safes* (WILDER'S PATENT,) that have in every instance preserved their contents when exposed to large fires like the burning of the Tribune Building office in New York, and many others, too numerous to mention.

The above Safes are now manufactured and for sale by JOHN E WILDER, Boston, and for sale in Bangor at the manufacturers prices by
FISKE & DALE

☞ The Following Letter from the Superintendent of the Magnetic Telegraph Company is another proof of the superiority of JOHN E WILDER'S Safes over all others —

BANGOR, Oct 21, 1849

John E Wilder, Esq. — Dear Sir — The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the first six hours; the books and papers were uninjured and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS EDDY

LINCOLN STAGE HOUSE.

THIS House has recently undergone extensive alterations and is now open for the accommodation of the public by the subscribers

They flatter themselves that they will be able to provide as expeditious and as cheap a conveyance as any house in the country—the recent improvements having had special reference to that object.

Private families, who may wish to spend a few days or weeks in this village, will be amply accommodated.

The House has, also, been elegantly furnished throughout with new furniture, and no pains will be spared by the subscribers to furnish their guests with everything for their comfort and convenience.

Connected with the House is a large and commodious Stable which has also been improved and repaired where any horses can be found an experienced, faithful Ostler. Horses and carriages for hire at all times when they wish.

The subscribers tender their services to the public and intend by keeping a first rate House, and attending faithfully to their business, to merit a liberal share of patronage

Healing Properties

Of the greatest Medicine of Age,

Stanton's External Remedy

—CALLED—

Hunt's Liniment,

Has astonished the world in the cure of numerous and most distressing cases, that have baffled the skill of four regular DIPLOMATISED PHYSICIANS, and were given up to die.

HAVE GIVEN UP

Their patients as past the help of man. HUNT'S LINIMENT has been applied, and the sufferer who has been given up to die, has been restored to

PERFECT HEALTH,

A LIFE SAVED.

Most Wonderful Cure of a man 80 years of Age.

In the month of November 1846 I was attacked with a fit of rheumatism, which soon broke out in a running sore. *Mortification ensued* and the first joint of my toe came off. At this time I was so lame that I had to get upon a chair to dress my sore. It grew steadily and had been true but a little time. The agony of pain I endured no one can imagine, the disease came on so long, so long, that I despaired of being cured. Many physicians despaired of being able to cure me, and after four months conflict I got well, I finally tried one bottle of HUNT'S LINIMENT, which has done all what I believe you have claimed for it. I applied it and the effect was wonderful, it seemed as if new life was put in me. In using one bottle the whole appearance of my leg had so far altered for the better, and two 50 cent bottles entirely cured me! to the astonishment of myself and the whole neighborhood. *Hunt's Liniment saved my life* I am 80 years of age, and make this public that every human being may know the value of this great medicine.

Extraordinary case of Hip and Spinal Diseases

BOSTON, MASSACHUSETTS, N. Y., Aug 27, 1849

Gentlemen—I write to inform you that I shall make use to you the great benefit I have derived from the use of Hunt's Liniment. About 6 years ago I was injured by a knee, in the HIP and SPINE so badly that I could not move with out the aid of Crutches.

I grew gradually worse for four Years, without under the care of two successful Physicians with first class practice, my case was hopeless. My Hip gathered and broke, and continued a running sore, and I was suffering with such severe pain, that I was a cripple for life. At the stage of the disease I commenced using Hunt's Liniment, which at each time more relief than any other medicine. In 3 weeks, the sore entirely healed, I am free from pain, and only weak from confinement. I think the use of your liniment saved my Life and has made me a cripple only so far as my whole health was shattered and I only attribute my sufferings and the cure

Yours &c.

JERAH BRADFORD

ESSEX BY FALLS, VERMONT, March 19 1849.

Sir—The three bottles of Liniment you sent me have proved beyond all doubt, that there is no medicine equal to Hunt's Liniment for Rheumatism. A very severe case of *Hip Rheumatism* which had been of a long standing, I had tried every thing I could hear of, and could find no relief, but to obtain it from the application of the parts affected.

I consider it a very valuable article for the purposes recommended
